SUPPLEMENTARY INFORMATION DISCLOSURE STATEMENT UNDER 37 CFR SECTIONS 1.56, 1.97 AND 1.98

MAIL STOP PATENT APPLICATION Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

The accompanying PTO Form 1449 is submitted pursuant to 37 CFR Sections 1.56, 1.97 and 1.98, directing Applicants to submit literature and information that may be considered material to the examination of the claims of an application. Applicants respectfully submit that this Supplementary Information Disclosure Statement (IDS) should be considered in accordance with 37 CFR Section 1.97(b)(1), as it is being submitted "[b]efore the mailing date of a first office action on the merits

. . . " for the subject application, and that therefore, no fee is required for its consideration.

In accordance with 37 CFR 1.97(e) the undersigned certifies that the reference cited within this Supplementary Information Disclosure Statement was cited in a communication from a foreign patent office in a counterpart foreign application on July 16, 2004, thus, not more than three months prior to the filing of this Information Disclosure Statement. Enclosed is a copy of the Notification of Transmittal of the International Search Report and the International Search Report from the International Searching Authority for a corresponding PCT application.

Applicants respectfully point out that the "filing of an information disclosure statement shall not be construed to be an admission that the information cited in the statement is, or is considered to be, material to patentability as defined in Section 1.56(b)" [37 CFR Section 1.97(h)]; and that an information disclosure statement filed in accordance with 37 CFR Section 1.97 "shall not be construed as a representation that a search has been made." [37 CFR Section 1.97(g)]

Further the identification of any document herein is not intended to be, and, Applicants respectfully submit, should not be construed as being, an admission that such a document, in fact, constitutes "prior art" within the meaning of the applicable laws, since, for example, a given document may have a

later effective date than at first seems apparent, or the document may have an effective date which can be antedated.

Applicants respectfully conclude on this point that the "prior art" status of any document is a matter to be resolved during prosecution.

Thus, Applicants respectfully conclude that the citation of references herein is not intended to be an admission that any of the references are considered to be material or to constitute prior art, or that any of the references, either alone or in combination with any other references, would be sufficient to render any of the claims of the above-identified patent application unpatentable.

Respectfully submitted
